It's personal...

As you enter through the front gates of Trinity College School, you think to yourself, "What will this opportunity bring?" After all, it has been a very personal decision to take the leap to attend a new school. And it is probably a little scary and exciting all at the same time...

But quickly you are greeted by the TCS community with a warm, welcoming embrace. Somehow, immediately, you sense that your decision to come to TCS was a good one. You recognize that this place is special and unique, and suspect that your experience will be as well.

Habits of the heart and mind—courage, creativity, compassion, integrity and perseverance—are palpable and prioritized in this community and, because of this, you feel empowered to delve into previously unexplored areas of interest and try new things. And there is SO MUCH to explore at TCS!

Experiencing the **individualized support and personal attention** that are at the heart of the TCS program, you craft and customize your own personal path, confidently pursuing newfound interests and passions. You are on your way now, on a journey to revealing your life's purpose.

The path of each TCS student is as individual as a fingerprint and as personal as a signature. I look forward to meeting you and introducing you to the people, program and place that are Trinity College School, so you can begin your

signature journey.

The TCS Signature Journey gives you a strong start on a longer adventure—one that leads from our campus to university and beyond.

You want to be ready for everything to come, but we believe it's important to appreciate the journey itself.

While you build strong bonds with classmates and friends, taking required courses together and forming a close-knit community, the Signature Journey is also uniquely yours. You can shape it by choosing elective classes, sampling co-curriculars and trying out campus activities. The rowing team, the handbell choir, even the field, farm and forest club—you might be surprised by our offerings and your own interests.

We'll be here to help and guide you along the way. And as you explore the opportunities waiting within TCS, you'll realize all the talents, passions and possibilities waiting within you.
